

MENTOR QUESTIONNAIRE

Here is where we will identify those who want to be mentors. You can fill out the following questionnaire and submit the data to the link provided. The information will not be distributed outside the club and you don't have to be a professional in order to help. You can volunteer your time in whatever way you feel comfortable by answering the questions below.

Mentors should be willing to help in areas of fishing as your abilities allow. Before taking someone fishing, for example, it might entail some lawn casting to prepare them for the actual experience. Obviously, this will take some time for a mentor, but should not become a full time job. The mentors will have to determine how much time they are able to spend with a member and may need a few mentors to work with some individuals. The mentor is not a guide, unless they so desire to act as one. The mentoring process is not a profit outing and a mentor should not charge an individual for the time spent in the instruction, but can request reimbursement for gas and other things that are needed for the fishing (and instruction) session.
